INTERPRETATION:

The alleged father, **JOHN J. DOE**, cannot be excluded as being the father of the child, **JOHN J. DOE, JR.** Based on these data, the probability of paternity is 99.9999% as compared to an untested randomly chosen man of the Black population. (Prior Probability = 0.5)

At least 99% of the male population is excluded from the possibility of being the biological father of the child, **JOHN J. DOE, JR.**
